🖥 Skills

- **Python**
- **Django**
- **HTML/CSS**
- **JavaScript**
- **SQL**
- **MySQL/PostgreSQL**
- **Git/Github**
- **Agile**
- **Confluence/Trello/Asana
  /Notion/Google
  Workspace**
- **Heroku**
- **PyCharm/Sublime text**
- **Miro/Figma**

👤 Profile

Ekaterina Kondratenko

Backend Developer

I am a Python developer seeking the position
through which I can progress. Participate in key
product development stages: development,
deployment and support.
Know a couple of ways to quit vim.

💼 Work Experience

Backend Engineer

April 2021 - Present
All Things Urban
https://www.allthingsurban.net/

- Implemented business logic using Django - made
  a Blog application, added website tags/
  displayed the related posts in list, adapted
  Admin Page for business needs
- Designed and developed UI using
  HTML/CSS/JavaScript)
- Worked with database (PostgreSQL) using Django
  ORM
- Managed code versioning with GitHub and
  deployment to production servers with Heroku
- Executed code to perform CRUD operations on
  MySQL using Python SQL Libraries, and
  specifically realised transactions taking into
  account ACID/SQL Injections and using prepared
  statements
- Used BeautifulSoup for web scrapping
- Join model data with clicks & views analytics
  and made CSV export available from Django
  Admin Page
